CMMISVC/3 Exp. 2023-05-08 / Appraisal #6522

U.S. Small Business Administration 8(a) Certified

TM3 Solutions, Inc. (TM3) is a Service Disabled Veteran Owned Small Business providing Information Technology and Information Assurance solutions. TM3 provides enterprise-wide engineering and support while delivering customer-centric, technology-based solutions using innovative contemporary techniques. TM3 Solutions listens to customer requirements and translates them into cost-effective solutions to meet immediate needs and future enhancements.

TM3 professional staff consists of cleared individuals that are motivated, dedicated, and highly qualified. We pride ourselves in providing high-quality, efficient service thru our CMMI Maturity Level 3 certification as well as our ISO 9001:2015 certification.

Asset Management

TM3 has developed processes to comprehensively address full asset management lifecycle services. We manage inventory, maintenance and support contracts, and configuration of assets across an enclave or enterprise. TM3 developed our TM3 Software Asset Management (TSAM) process as a premiere enterprise management system designed for the management and optimization of the purchase, deployment, maintenance, utilization, and disposal of client software assets.

Cyber Security & Information Assurance

TM3's Cyber Security Services encompass a comprehensive set of solutions that address almost every facet of today's cyber challenges. Our Cyber Security professionals are widely recognized in the industry for their expertise in identifying and addressing the full spectrum of threats and vulnerabilities. Using a risk based approach, we leverage industry best practices to implement secure IT solutions which comply with federal standards for classified and unclassified systems and networks.

Enterprise IT Solutions

TM3 Solutions provides a comprehensive range of network engineering and management services, with the goal of ensuring that the network infrastructure is optimally functioning to support mission and business. TM3 Solutions focuses on building partnerships between the organization's IT and business leadership, ensuring that our customers' business strategy and initiatives are driving the direction and priorities for their IT investment decisions.

Software Development / DEVSECOPS

With our years of Cybersecurity past performance and newly developed software development capability, TM3 brings expertise in DevSecOps to iteratively design, develop, test, implement and maintain secure, functional applications for our clients. Our Agile Development Processes deliver incremental capabilities in short, time-boxed sprints.

Value Added Reseller (VAR)

As a value added reseller (VAR), TM3's Products and Software Division establishes TM3 as a small business system integrator offering a total solution set of both product access and technical expertise services with access to multiple contract vehicles for procurement. Our access to vendor training positions us as solution experts. Our pre-staging and project management experience eases delivery and implementation.
