TM3 Solutions, Inc. (TM3) is a Service Disabled Veteran Owned Small Business providing Information Technology and Information Assurance solutions. TM3 provides enterprise-wide engineering and support while delivering customer-centric, technology-based solutions using innovative contemporary techniques. TM3 Solutions listens to customer requirements and translates them into cost-effective solutions to meet immediate needs and future enhancements.

TM3 professional staff consists of cleared individuals that are motivated, dedicated, and highly qualified. We pride ourselves in providing high-quality, efficient service thru our CMMI Maturity Level 3 certification as well as our ISO 9001:2015 certification. Our services division included capabilities in Enterprise IT Solutions, Asset Management, Cyber Security & Information Assurance and Software Development / DevSecOps

Value Added Reseller (VAR) Differentiators

- TM3's services capabilities uniquely positions our Products and Software Division as a small business system integrator offering a total solution set of both product access and technical expertise services
- Our VAR processes and workflows are extended from our services divisions' CMMI and ISO foundation allowing us to provide consistent high quality services
- Our strategic partner network allows us to establish flexible solutions and collaborative approaches
- Our project management experience eases delivery and implementation of products into complex client environments
- Our vendor agnostic model facilitates insight and experience to negotiate costs savings and assist with IT VAR-related buys
- Broad past performance that encompasses CONUS, OCONUS, and Enterprise IT as a Service (EITaaS) and network installations in major NCR locations
- TM3 has access to multiple contracting options from prime vehicles to stand alone contracting to partner network vehicle access and socio-economic designations that meet agency goals

Our VAR capabilities complement our services

- Agile small systems integrator
- Prime contract vehicles
- Industry related association participation
- Multiple innovation hub access
